	F	Adjustments included in RWAs due to IFRS 9 transitional arrangements				0	0	0	0	C 01.00 (0440,0000)	

¹The fully loaded CET1 ratio is an estimate calculated based on bank's supervisory reporting. Therefore, any capital instruments that are not eligible from a regulatory point of view at the reporting date are not taken into account in this calculation. Fully loaded CET1 ratio estimation is based on the formulae stated in column "COREP CODE" - please note that this might lead to differences to fully loaded CET1 capital ratios published by the participating banks e.g. in their Pillar 3 disclosure

⁽¹⁾ Original exposure, unlike Exposure value, is reported before taking into account any effect due to credit conversion factors or credit risk mitigation techniques (i.e., substitution effects).

⁽²⁾ Standardised Total does not include the securitisation position unless in the results area for the 2023 exercise.

⁽³⁾ Only the most relevant countries are disclosed. These have been selected under the following risk: Countries of counterparty covers up to 5% of total original exposure or Top 10 countries ranked by original exposure, calculated as of last quarter.

⁽⁴⁾ Starting from the 2022 exercise, value adjustments and provisions for the consolidated data include general credit risk adjustments, for the consistency with the data per country of counterparty.

Notes and definitions

Information disclosed in this template is sourced from COREP template C 33, introduced with the reporting framework 2.7, applicable for reports as of 31 March 2018.

(1) Information on sovereign exposures is only available for institutions that have sovereign exposures of at least 1% of total "Debt securities and loans receivables". Country of breakdown is only available for institutions that hold non-domestic sovereign exposures of 10% or more compared to total sovereign exposures. Where the latter threshold is not met, information is disclosed through the aggregate "Others".

(2) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees

(3) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(4) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and/or accounting classification of the positions

the economic substance over the form must be used as a criteria for the identification of the exposures to be included in this column. This item does not include exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments

(5) Residual countries not reported separately in the Transparency exercise

Regions:

Other advanced non-EEA: Israel, Korea, New Zealand, Russia, San Marino, Singapore and Taiwan.

Other CEE non-EEA: Albania, Bosnia and Herzegovina, FYR Macedonia, Montenegro, Serbia and Turkey.

Middle East: Bahrain, Djibouti, Iran, Iraq, Jordan, Kuwait, Lebanon, Libya, Oman, Qatar, Saudi Arabia, Sudan, Syria, United Arab Emirates and Yemen.

Latin America: Argentina, Belize, Bolivia, Brazil, Chile, Colombia, Costa Rica, Dominica, Dominican Republic, Ecuador, El Salvador, Grenada, Guatemala, Guyana, Haiti, Honduras, Jamaica, Mexico, Nicaragua, Panama, Paraguay, Peru, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Suriname, Trinidad and Tobago, Uruguay, Venezuela, Antigua And Barbuda, Aruba, Bahamas, Barbados, Cayman Islands, Cuba, French Guiana, Guadeloupe, Martinique, Puerto Rico, Saint Barthélemy, Turks And Caicos Islands, Virgin Islands (British), Virgin Islands (U.S.).

Africa: Algeria, Egypt, Morocco, South Africa, Angola, Benin, Botswana, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Congo, The Democratic Republic Of The Congo, Côte D'Ivoire, Equatorial Guinea, Eritrea, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritius, Mauritania, Mozambique, Namibia, Niger, Nigeria, Rwanda, Sao Tome And Principe, Senegal, Seychelles, Sierra Leone, South Sudan, Switzerland, United Republic Of Tanzania, Togo, Uganda, Zambia, Zimbabwe and Tunisia.

(6) The columns "Total carrying amount of non-derivative financial assets (net of short positions)" provide information on a net basis, whilst the related "of which" positions present information on a gross basis.

(7) The values for the "Other" bucket is calculated subtracting from the reported Total the breakdown of the listed countries. As a result of precision and rounding in the calculation we accept an approximation in the order of e04.

(8) Information on Non-derivative financial assets by accounting portfolio is not included for institutions applying nGAAP

OFF-BALANCE SHEET EXPOSURES	153	0	0	0	0	0	0	0	0	17	0	0	0	0	0	0	0	0	0	0	0	0	0

¹⁾ For the definition of non-performing exposures please refer to Article 47(a)(2) of Regulation (EU) No 575/2013 (CRR).

²⁾ Institutions must have the cumulative amount of expected credit losses since initial recognition for financial instruments subject to measurement and provisions for off-balance sheet exposures.

³⁾ Institutions must have the cumulative amount of expected credit losses since initial recognition for financial instruments subject to measurement and provisions for off-balance sheet exposures.

⁴⁾ For the on-balance sheet items, accumulated impairments and accumulated negative changes in fair value due to credit risk are disclosed with a positive sign if they are decreasing assets. Following this sign convention, information is disclosed with the opposite sign of what is reported according to the PFRBP framework (template F 10.00 / F 19.00), which follows a sign convention based on a credit/debit convention, as explained in Annex V, Part 1 paragraphs 10 and 11 of Regulation (EU) 2021/451 - ITS on Supervisory reporting. However, for the off-balance sheet instruments, the same term (Accumulated impairment, accumulated changes in fair value due to credit risk and provisions) is disclosed consistently with the PFRBP sign convention. This is because, based on the sign convention, the provisions on off-balance sheet commitments are generally reported with a positive sign.

⁵⁾ From June 2022, the gross carrying amount of assets and accumulated impairments that are purchased or originated as credit impaired at initial recognition are not included in the impairment stages, as it was the case in previous periods.

OFF-BALANCE SHEET EXPOSURES	444										55											

(1) For the definition of non-performing exposures please refer to Article 4(1)(2) of Regulation (EU) No 575/2013 (CRD).
(2) Institutions report here the cumulative amount of expected credit losses since initial recognition for financial instruments subject to impairment and provisions for off-balance sheet exposures.
(3) Institutions report here the cumulative amount of expected credit losses since initial recognition for financial instruments subject to impairment, the accumulated negative changes in fair value due to credit risk for financial instruments measured at fair value through profit or loss other than HFT and provisions for off-balance sheet exposures.
(4) For the on-balance sheet items, accumulated impairment and accumulated negative changes in fair value due to credit risk are disclosed with a positive sign if they are decreasing assets. Following this sign convention, information is disclosed with the opposite sign of what is reported according to the FROEP Framework (template F 18.00 / F 18.05), which follows a sign convention based on a credit/debit convention, as explained in Annex V, Part 1 paragraphs 10 and 11 of Regulation (EU) 2021/451 - ITS on Supervisory reporting. However, for the off-balance sheet exposures, the same item (Accumulated impairment, accumulated changes in fair value due to credit risk and provisions) is disclosed consistently with the FROEP sign convention. This is because, based on the sign convention, the provisions on off-balance sheet commitments are generally reported with a positive sign.
(5) From June 2021, the gross carrying amount of assets and accumulated impairments that are purchased or originated as credit-impaired at initial recognition are not included in the impairment stages, as it was the case in previous periods.

QUALITY OF FORBEARANCE ²													
Loans and advances that have been forborne more than twice ³	0						0						
Non-performing forborne loans and advances that failed to meet the non-performing exit criteria ³	0						0						

⁽¹⁾ Forborne exposures are debt contracts in respect of which forbearance measures as defined in Article 47b(1) and (2) CRR have been applied

⁽²⁾ For the on-balance sheet items, accumulated impairments and accumulated negative changes in fair value due to credit risk are disclosed with a positive sign if they are decreasing assets. Following this sign convention, information is disclosed with the opposite sign of what is reported according to the FINREP framework (templates F 18.00 / F 19.00), which follows a sign convention based on a credit/debit convention, as explained in Annex V, Part 1 paragraphs 10 and 11 of Regulation (EU) 2021/451- ITS on Supervisory reporting. However, for the off-balance sheet instruments, the same item ("Accumulated impairment, accumulated changes in fair value due to credit risk and provisions") is disclosed consistently with the FINREP sign convention. This is because, based on this sign convention, the provisions on off-balance sheet commitments are generally reported with a positive sign.

⁽³⁾ The information applies only to banks meeting at least one of the criteria for significance and having a ratio of non-performing loans and advances divided by total loans and advances (excluding loans and advances classified as held for sale, cash balances at central banks and other demand deposits) of 5% or above.

QUALITY OF FORBEARANCE²													
Loans and advances that have been forborne more than twice ³	0						0						
Non-performing forborne loans and advances that failed to meet the non-performing exit criteria ³	0						0						

(1) Forborne exposures are debt contracts in respect of which forbearance measures as defined in Article 47b(1) and (2) CRR have been applied

(2) For the on-balance sheet items, accumulated impairments and accumulated negative changes in fair value due to credit risk are disclosed with a positive sign if they are decreasing assets. Following this sign convention, information is disclosed with the opposite sign of what is reported according to the FINREP framework (templates F 18.00 / F 19.00), which follows a sign convention based on a credit/debit convention, as explained in Annex V, Part 1 paragraphs 10 and 11 of Regulation (EU) 2021/451- ITS on Supervisory reporting. However, for the off-balance sheet instruments, the same item (Accumulated impairment, accumulated changes in fair value due to credit risk and provisions) is disclosed consistently with the FINREP sign convention. This is because, based on this sign convention, the provisions on off-balance sheet commitments are generally reported with a positive sign.

(3) The information applies only to banks meeting at least one of the criteria for significance and having a ratio of non-performing loans and advances divided by total loans and advances (excluding loans and advances classified as held for sale, cash balances at central banks and other demand deposits) of 5% or above.
