|                 | of which: SMC                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | 476 ## 2023 EU-wide Stress Test: Major capital measures and realised losses

(min EUR	)
Issuance of CET 1 Instruments 01 January to 31 March 2023	Impact on Common Equity Tier 1
Raising of capital instruments eligible as CET1 capital (+)	0
Repayment of CET1 capital, buybacks (-)	0
Conversion to CET1 of hybrid instruments (+)	0

Net issuance of Additional Tier 1 and Tier 2 Instruments 01 January to 31 March 2023	Impact on Additional Tier 1 and Tier 2
Net issuance of Additional Tier 1 and T2 Instruments with a trigger at or above bank's post stress test CET1 ratio in the adverse scenario during the stress test horizon (+/-)	0
Net issuance of Additional Tier 1 and T2 Instrument with a trigger below bank's post stress test CET1 ratio in the adverse scenario during the stress test horizon (+/-)	750

Realised losses 01 January to 31 March 2023	
Realised fines/litigation costs (net of provisions) (-)	0
Other material losses and provisions (-)	0
