1. Introduction

This document is meant as a reference for all applicants and those potentially interested in applying for a career within the European Banking Authority (EBA). It provides tutorial instructions on how to apply using the EBA's <u>eRecruitment platform</u>.

This manual guides applicants through all necessary steps to create an account and submit an application.

1.1 EBA's eRecruitment platform

For its selection procedures the EBA uses an electronic recruitment system designed to simplify the application process for candidates, and to maximise EBA's talent sourcing and screening efforts.

Please note that the creation of your candidate profile does not imply any commitment on the part of the EBA. To be considered as a candidate in a selection procedure, you need to submit an application form for each specific EBA job vacancy published that you are interested in.

Applicants can update their candidate profile at any time. The updated information will pre-fill the future applications the candidate submits. The prefilled application form for a specific job vacancy can be modified at any time during the application process.

The different sections of the application form are meant to assess the candidate's technical and behavioural competencies required according to the job profile. The Selection Board assesses submitted applications based on the evidence provided by the applicants on their knowledge, experience and competencies, with the aim to select the best candidates that correspond to the profile sought to be shortlisted for further assessment.

Education

Please add all your education qualifications and trainings by clicking on Add a diploma. You need to indicate the level, exact start and end date of your diploma, the principal subjects your studied and the name of the educational establishment and where it is located.

You only need to upload a copy of your diploma in case the main studies took place outside of the European Union (EU) or European Economic Area (EEA).

Only qualifications awarded by EU Member State authorities or EEA authorities or qualifications recognised as equivalent by the relevant authorities will be taken into consideration.

Non-EU diploma

If the main studies took place outside the EU, your qualification must have been recognised by a body delegated officially for the purpose by one of the EU Members States (such as a national Ministry of Education) or a NARIC recognition is required: <u>https://www.enic-naric.net/</u> and a document attesting so must be uploaded with the application by the closing date. If you have a diploma recognised in an EU Member State, you don't need NARIC recognition for your lower-level diploma(s). Example: If you have a Bachelor's degree from a university outside the EU, and a Master's degree from an EU university, you don't need NARIC recognition for the Bachelor's degree.

Qualifications/diplomas awarded until 31/12/2020 in the United Kingdom are accepted without further recognition. For diplomas awarded after this date (from 01/01/2021), a NARIC recognition is required.
