#### The Authority

The European Banking Authority (“EBA”) is an independent European Union Authority established on 1 January 2011 by Regulation (EU) No. 1093/2010 of the European Parliament and of the Council of 24 November 2010.<sup>2</sup>

#### The Mission

With a view to improving the functioning of the European Union internal market, the EBA contributes to ensuring a high quality, effective and consistent level of regulation and supervision in its areas of competence. It also promotes public values such as the stability of the financial system, the transparency of markets and financial products, and the protection of depositors and investors.

It works to prevent regulatory arbitrage and guarantee a level playing field, strengthens international supervisory coordination, promotes supervisory convergence and provides advice to the Union institutions in the areas of banking, payments and e-money regulation and supervision, and related corporate governance, auditing and financial reporting issues.

As an integral part of the European System of Financial Supervision (ESFS), the EBA works closely together with her sister authorities, the European Insurance and Occupational Pensions Authority (EIOPA) and the European Securities Market Authorities (ESMA), as well as the Joint Committee and the European Systemic Risk Board (ESRB).

Further information on the EBA is available on the EBA website: [www.eba.europa.eu](http://www.eba.europa.eu).

<sup>1</sup> According to the Article 2(f) of the Conditions of Employment of Other Servants of the European Union (CEOS)

<sup>2</sup> OJ L 56, 4.3.1968, p. 1, as last amended by Regulation (EU, Euratom) No 1023/2013 of the European Parliament and of the Council of 22 October 2013, OJ L 287, 29.10.2013, p.15.

The EBA is seeking a suitable candidate for the position of an IT Expert (Lead Solutions Developer) at its offices in London, United Kingdom.

## Job description

### Main purpose

The European Banking Authority is seeking a suitable candidate for the position of IT Expert (Lead Solutions Developer) in the Operations Department. Under the overall responsibility of the Head of IT Unit, the successful candidate will play an important role in contributing and leading the technical development of the IT applications and backend solutions used by the EBA and the National Competent Authorities.

### Main responsibilities:

- Based on defined business specifications, participate in and take responsibility for the design, implementation and development of large scale IT information systems (internally developed and third party solutions);
- Actively participate in and coordinate the development team responsible for introduction of new systems into the business environment and support within the context of IT projects or services;
- Provide all required documentation related to the delivered solutions;
- Provide options and recommendations for the developments of solutions in the context of issue management, problem management and change requests;
- Monitor the development of the project is in sync with the documented and approved technical and functional requirements;
- Ensure all the software quality standards and best practices are followed;
- Design IT solutions meeting requirements and in line with IT architectural principles;
- Perform technical testing and produce related documentation and reports;
- Participate in writing functional and technical specifications, analyse and evaluate proposal and conduct negotiations around the implementation of IT solutions;
- Assist project manager in defining and estimating work packages and allocating resources according to their skills for project work;
- Plan go-live with release managers and operations and provide the necessary documentation;
- Carry out other activities as may be required.

The EBA IT Team is relatively small and requires sharing of tasks amongst its members. Shared tasks include for example:

- Contributing to the planning of maintenance activities in particular related to the EBA's backend environment;
- Contributing to drafting and validating technical designs in particular for the EBA's IT infrastructure and backend systems (i.e. Unix, Oracle RDBMS, Microsoft SQL Server, Oracle Weblogic etc.);

- Contributing to drafting technical specifications for tender procedures and participating in the evaluation;
- Acting as the operational initiator and ensuring timely commitments and payments to the external IT providers, monitoring the related budget spending, liaising with the external IT providers, and assisting in the year end closure activities.
