Within the scope of the EBA Transparency Exercise 2018, data on the highest consolidation level of the financial holding company, HSH Beteiligungs Management GmbH, is published on EBA's website. However, the bank's investor and financial reporting focuses mainly on the sub-consolidated group level of HSH Nordbank AG and is based on the IFRS financial statements of the latter. Furthermore, following a successful privatisation, HSH Beteiligungs Management GmbH will be terminated and HSH Nordbank AG will once again be the highest level of consolidation. For this reason, on its own investor relations website the institution will publish both the EBA Transparency Exercise 2018 data at the highest consolidation level for the financial holding HSH Beteiligungs Management GmbH, and the sub-consolidated group level data of HSH Nordbank AG. The data referring to the sub-consolidated group level of HSH Nordbank AG is published on the institution's own responsibility; hence, the relevant templates have not been reviewed by the supervisory authorites.

(1) For the definition of non-performing exposures please refer to COMMISSION IMPLEMENTING REGULATION (EU) 2015/227 of 9 January 2015, ANNEX V, Part 2-Template related instructions, subtitle 29

(1) Institutions report here collective allowances for incurrred but not reported losses (instruments at amortised cost) and changes in fair value of performing exposures due to credit risk and provisions (instruments at fair value other than HFT)

(1) Insitutions report here specific allowances for financial assets, individually and collectively estimated (instruments at amortised cost) and changes in fair value of NPE due to credit risk and provisions (instruments at fair value other than HFT)

(⁴⁾ For the on-balance sheet items, accumulated impairments and accumulated negative changes in fair value due to credit risk are disclosed with a positive sign if they are decreasing assets. Following this sign convention, information is disclosed with the opposite sign of what is reported according to the FINREP framework (templates F 18.00 / F 19.00), which follows a sign convention based on a credit/debit convention, as explained in Annex V, Part 1 paragraphs 9 and 10 of Regulation (EU) No 860/2014 - ITS on Supervisory reporting. However, for the off-balance sheet instruments, the same item ('Accumulated impairment, accumulated changes in fair value due to credit risk and provisions') is disclosed consistently with the FINREP sign convention. This is because, based on this sign convention in diversions are generally reported with a positive sign.
