(1) The amount is already included in the computation of the eligible capital and reserves and it is provided separately for information purposes.

(2) According with CRD3 it can include also 50% securitisation exposures in the trading book subject to 1250% risk weight and not included in RWA.

(3) It includes also possible differences between the book value and the fair value of: i) direct sovereign exposures in derivatives; ii) indirect sovereign exposures in the banking and trading book

Notes and definitions

- (1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparts with full or partial government guarantees
 (2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.
 (3) The exposures reported include the positions towards counterparts (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions the economic substance over the form must be used as a criteria for the identification of the exposures to be included in this column. This item does not include exposures to counterparts (other than sovereign) with
- full or partial government guarantees by central, regional and local governments
- (4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.
- (5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).

Composition of RWA as of 30 September 2011

Name of the bank: NL047 ING BANK NV

(in million Euro)

| | Rules at the end of September | CRD 3 rules |
|---|-------------------------------|-------------|
| Total RWA (1) | 319,956 | 333,112 |
| RWA for credit risk | 279,677 | 279,677 |
| RWA Securitisation and re-securitisations | 21,158 | 21,158 |
| RWA Other credit risk | 258,519 | 258,519 |
| RWA for market risk | 4,830 | 17,986 |
| RWA operational risk | 35,449 | 35,449 |
| Transitional floors (2) | - | - |
| RWA Other | - | - |

Notes and definitions

(1) The RWA calculated according to CRD III can be based on models that have not yet been approved by the National Supervisory Authority.

(2) All IRB/AMA banks in the exercise have applied transitional floor which assess the impact 80% of the Basel 1 requirements. However, wide divergences in national approaches to the floors means that two main approaches have been identified as set out in the methodological note. The transitional floor has been applied according to the following approach:

⁽¹⁾ It includes credit derivatives and other credit risk transfer contracts/instruments that irrespective of the denomination respresent indirect exposures (as protection seller/buyer) on sovereign risk (reference entity)

⁽²⁾ The country identifies the reference entity single name of the CDS and other contracts.

⁽³⁾ Notional amounts outstanding: Nominal or notional amounts outstanding are defined as the gross nominal or notional value of all contracts concluded and not yet settled on the reporting date. For contracts with variable nominal or notional principal amounts, the basis for reporting is the nominal or notional principal amounts at the time of reporting.
